WA Mining Tenement Insights

Exploring Trends in Western Australia Mining Tenement and Key Holders

Summary Narrative

This dashboard provides critical insights into **Western Australia mining tenement activity**. We observe a significant increase in **tenements granted per year** (especially post-2000, peaking over 2,500), with **Exploration Licences** (34.1%) and **Mining Leases** (22.83%) being dominant types. The analysis of **top tenement holders**, like **FMG Resources Pty Ltd**, highlights **market concentration**. This data empowers **strategic decision-making**, enabling stakeholders to identify **emerging opportunities**, assess **market dynamics**, and optimize **resource planning** within the WA mining sector.
